

IV. Integrated Research Project:

1. Integrated Research Project:

Name	Institution/ Department	Position	Role in the project
Principal Investigator			
Co-Principal Investigator 1			
Co-Principal Investigator 2			
Co-Principal Investigator 3			
Co-Principal Investigator 4			
Co-Principal Investigator 5			
.			
.			

2. Describe Integrated Research Project on separate pages for each item below:

- (1) Necessity of integrated research: describe overall goals, work division and collaboration scheme, relevance and degree of integration among PIs and co-PIs.
- (2) Personnel capabilities: describe the chief investigator's abilities in coordination and leadership, and each co-PI's specialization strengths and role in the project.
- (3) Integration of resources: describe the sharing of instruments among PIs and co-PIs, and the interchange of research experiences and results.
- (4) Any support from proposing institution or other organizations.
- (5) Anticipated results or contributions of integrated research.
